The following comments were communicated to the department based on review by the Student Learning Outcomes Assessment Committee:

1. List all outcomes in one list without categories.
2. Describe the capstone project in a bit more detail.
3. Make it clear that faculty administer the capstone rating form. The rubric looks good, but we'd encourage you to think a bit more about intercoder reliability.
4. In action, how is Continue the Capstone course an action item? Be a bit more specific in other areas as well.
