

Community Health Plan SLOAC Review Comments

Thanks for filing an assessment plan with the SLOAC. We have the following comments for you to consider:

1. Is this an education program?
2. The SLOs come from a national organization. But I would caution about assessing #3 “implement,” #5 “coordinate” and #6 “act.” These may be difficult to assess while the student is in school.
3. On SLO 2 and 4, for your desired outcome. Is it 65% improvement for all students? Is this an average of all student improvement?
4. The test is a good way to assess their knowledge of these outcomes. We would encourage you to consider assessing a project in which students actually plan and evaluate health education programs.

Your first report will be due October 31, 2007.

Since you have just started this assessment, it may be difficult to determine how a grant will improve learning. Keep the possibility of a grant in mind for the future. Grant applications are due Jan. 31, 2007. The form is available at www.mnstate.edu/assess.

If you have questions at any time, please contact Tim Borchers at borchers@mnstate.edu.

Thanks!
