SLOAC Review Comments

Thanks for filing an assessment plan with the SLOAC. We have the following comments for you to consider:

1. SLO 1: We do think the PRAXIS II exam is good to measure the knowledge outcome. We have concerns that you cannot require students to take this exam, which would make it difficult to use as an assessment instrument.
2. SLO 8: We think the conference journaling is more applicable to this outcome, but would encourage the program to develop a rubric to measure whether the student has become more reflective in the areas identified.
3. Some of these SLOs seem that they would be difficult to assess, but we understand that the program's ability to change them is somewhat constrained.

We encourage you to think more about your assessment plan. We'll meet and determine how we might proceed to address some of these concerns. Your first report will be due October 31, 2007.

If you have questions at any time, please contact Tim Borchers at borchers@mnstate.edu.

Thanks!
