

Required Text and Materials

Chem 350/Chem 360 Fall/Spring 2009/20010

- 1) Text: "Organic Chemistry 6th Edition" (or 7th edition is also fine)
 - Author: L. G. Wade JR
 - Published by Pearson Prentice Hall
 - ISBN 0-13-147871-0 (6th edition)
 - ISBN 0-32-159231-0 (7th edition)
 - Note: if you already have a copy of McMurry's Organic Chemistry as used at NDSU, you will be able to use that, contact me for details.

- 2) "Solutions Manual" for "Organic Chemistry Sixth Edition" (or 7th edition is also fine)
 - Authors J. W. Simek, L. G. Wade Jr.
 - Published by Pearson Prentice Hall
 - ISBN: 0-13-147882-6 (6th edition)
 - ISBN-10: 0-321-59871-7 (7th edition)

- 3) Class Manual, for use in Class
 - To get both a class manual for use in class, and a lab manual, it will cost \$20. To get just the class manual will be \$15; to get just the lab manual will be \$10. These manuals will be sold by Chem Club on the first day of class. So you don't need to order or buy or do anything about these until August for Chem 350/355 or January for Chem 360/365. The class manual will include copies of notes with lots and lots of summary sections and lots and lots of representative problems that I will discuss and work through in class. The advantage of having chem club sell them rather than bookstore is that it's good for chem club, and you can buy them much cheaper than via the bookstore with bookstore markup. Bring \$20 or a check to MSUM Chem Club the first day!

Chem 355/Chem 365 Fall/Spring

- 1) Safety Goggles
- 2) A lab manual will be sold by Chem Club on the first day of lecture, or will be available in the office. As mentioned above, if you buy the lab manual in combination with the class manual it will be \$20 for both. If you are only taking lab but not lecture, the lab manual will be \$10.
- 3) No lab book to order or purchase in advance.
