

## Pre-Registration Windows

Graduate students and students with previously earned baccalaureate degrees are eligible to register on the Web anytime after 8:00 a.m. on March 27, 2006. Currently enrolled and readmitted students have their registration time (window) based on the number of credits earned (credits earned prior to Spring 2006). Since most registration windows are limited to 30-40 students, more than one window may exist for the same credit total. In these situations, the window is further defined by listing a number range (i.e. 50-74) beside the credit total. If the last two digits of the student's Social Security number fall within the number range, the student may register at that time. For instance, in the Fall Semester registration schedule (printed on this page), you will see that students who register on April 7, at 8:30 a.m., need to have earned 12 credits and have a Social Security number whose last two digits fall between a number range of 75-99. If you have earned 12 credits and your Social Security number is 999-64-5280, you are eligible to register on April 7 at 8:30 a.m.; if you have 12 credits and your Social Security number is 999-64-5260, your registration window doesn't open until April 7 at 9:00 a.m. **A student may register at any time later but not earlier than their registration window. Once a student's window opens, registrations may be processed at any time through the 5th class day of the term.**
