# **D. LEARNING OUTCOMES (General)**

05/20/2024 06:49 AM Version 3.1.4 Page 2 of 4

- 1. Advocate for the health needs of clients, patients, communities, and populations.
- 2. Practice in collaboration with other health care and wellness professionals.
- 3. Provide athletic training services in a manner that uses evidence to inform practice.
- 4. Practice in a manner that is congruent with the ethical standards of the profession.
- 5. Practice health care in a manner that is compliant with the BOC Standards of Professional Practice and applicable institutional/organizational, local, state, and federal laws, regulations, rules, and guidelines. Applicable laws and regulations include (but are not limited to) the following:
  - -Requirements for physician direction & collaboration
  - -Mandatory reporting obligations
  - -Health Insurance Portability & Accountability Act (HIPAA)
  - -Family Education Rights and Privacy Act (FERPA)
  - -Universal Precautions/OSHA Bloodborne Pathogen Standards
  - -Regulations pertaining to OTC/prescription meds
- 6. Self-assess professional competence and create professional development plans according to personal and professional goals and requirements.
- 7. Advocate for the profession.
- 8. Develop a care plan for each patient. The care plan includes (but is not limited to) the following:
  - -Assessment of the patient on an ongoing basis and adjustment of care accordingly
  - -Collection, analysis, and use of patient-reported and clinician-rated outcome measures to improve patient care
  - -Consideration of the patient's goals and level of function in treatment decisions
  - -Discharge of the patient when goals are met or the patient is no longer making progress
  - -Referral when warranted
- 9. Evaluate and manage patients with acute conditions, including triaging conditions that are life threatening or otherwise emergent.
- 10. Perform an examination to formulate a diagnosis and plan of care for patients with health conditions commonly seen in athletic training practice.
- 11. Perform or obtain the necessary and appropriate diagnostic or laboratory tests including (but not limited to) imaging, blood work, urinalysis, and electrocardiogram to facilitate diagnosis, referral, and treatment planning.
- 12. Select and incorporate interventions (for pre-op patients, post-op patients, and patients with nonsurgical conditions) that align with the care plan.
- 13. Educate patients regarding appropriate pharmacological agents for the management of their condition, including indications, contraindications, dosing, interactions, and adverse reactions.
- 14. Administer medications or other therapeutic agents by the appropriate route of administration upon the order of a physician or other provider with legal prescribing authority.
- 15. Evaluate and treat a patient who has sustained a concussion or other brain injury, with consideration of established guidelines.
- 16. Identify, refer, and give support to patients with behavioral health conditions. Work with other health care professionals to monitor these patients' treatment, compliance, progress, and readiness to participate.
- 17. Select, fabricate, and/or customize prophylactic, assistive, and restrictive devices, materials, and techniques for incorporation into the plan of care, including the following:
  - -Durable medical equipment
  - -Orthotic devices
  - -Taping, splinting, protective padding, and casting
- 18. Develop and implement strategies to mitigate the risk for long-term health conditions across the lifespan.
- 19. Develop, implement, and assess the effectiveness of programs to reduce injury risk.
- 20. Plan and implement a comprehensive pre-participation examination process to affect health outcomes.

Version 3.1.4 Page 3 of 4 05/20/2024 06:49 AM

- 21. Develop, implement, and supervise comprehensive programs to maximize sport performance that are safe and specific to the client's activity.
- 22. Educate and make recommendations to clients/patients on fluids and nutrients to ingest prior to activity, during activity, and during recovery for a variety of activities and environmental conditions.
- 23. Educate clients/patients about the effects, participation consequences, and risks of misuse and abuse of alcohol, tobacco, performance-enhancing drugs/substances, and over-the-counter, prescription, and recreational drugs.
- 24. Monitor and evaluate environmental conditions to make appropriate recommendations to start, stop, or modify activity in order to prevent environmental illness or injury.
- 25. Select, fit, and remove protective equipment to minimize the risk of injury or re-injury.
- 26. Select and use biometrics and physiological monitoring systems and translate the data into effective preventive measures, clinical interventions, and performance enhancement.
- 27. Perform administrative duties related to the management of physical, human, and financial resources in the delivery of health care services.
- 28. Use a comprehensive patient-file management system (including diagnostic and procedural codes) for documentation of patient care and health insurance management.
- 29. Establish a working relationship with a directing or collaborating physician.
- 30. Develop, implement, and revise policies and procedures to guide the daily operation of athletic training services.
- 31. Develop, implement, and revise policies that pertain to prevention, preparedness, and response to medical emergencies and other critical incidents.
- 32. Develop and implement specific policies and procedures for individuals who have sustained concussions or other brain injuries, including the following:
  - -Education of all stakeholders
  - -Recognition, appraisal, and mitigation of risk factors
  - -Selection and interpretation of baseline testing
  - -Agreement on protocols to be followed, including immediate management, referral, and progressive return to activities of daily living, including school, sport, occupation, and recreation.
- 33. Develop and implement specific policies and procedures for the purposes of identifying patients with behavioral health problems and referring patients in crisis to qualified providers.

## E. Minnesota Transfer Curriculum Goal Area(s) and Competencies

None

### F. LEARNER OUTCOMES ASSESSMENT

As noted on course syllabus

#### G. SPECIAL INFORMATION

None noted
