

STEM Teaching Scholarships

***Do you excel at science or math?
Have you ever thought about teaching?***

Good, because there's a shortage of math and science teachers across the nation, including in Minnesota. MSU Moorhead's **Robert Noyce National Science Foundation Grant** is a program dedicated to giving current or graduated math and science students the opportunity to earn a teaching license free of cost for up to three years.

*For more information or an application go to:
