

Minnesota State University Moorhead

CNSA 605: Counseling Research, Statistical Methods & Program Evaluation

A. COURSE DESCRIPTION

Credits: 3

Lecture Hours/Week: 3

Lab Hours/Week: *.*

OJT Hours/Week: *.*

Prerequisites: None

Corequisites: None

MnTC Goals: None

This course is intended to provide students with an introduction to applied research methods. Students will be able to identify the strengths and limitations associated with different research approaches. This course is also designed to give students the necessary skills to conduct research in the student affairs and counseling field. Students will develop skills including: developing research topics and questions, creating program evaluations, using library resources, and using educational technology to search for relevant literature and propose research for counseling and related fields.

B. COURSE EFFECTIVE DATES: 10/08/2014 - 11/18/2019

C. OUTLINE OF MAJOR CONTENT AREAS

None

D. LEARNING OUTCOMES (General)

None
