A. COURSE DESCRIPTION

Credits: 1

Lecture Hours/Week: 1

Lab Hours/Week: 0

OJT Hours/Week: *.*

Prerequisites: None

Corequisites: None

MnTC Goals: None

Introduction to Health Professions is a course designed for students interested in exploring the many career paths available in health care. This course will help students decide if a career in the health professions is a good fit for them. Students will have the opportunity to reflect on their own values, skills and strengths. They will also hear first-hand from an extensive line-up of guest speakers and learn more about the academic and experiential requirements for health professional schools.

B. COURSE EFFECTIVE DATES: 02/02/2019 - Present

C. OUTLINE OF MAJOR CONTENT AREAS

D. LEARNING OUTCOMES (General)

1. Assess interests, values, personality and abilities as related to health careers.
2. Gain an understanding of the competencies, professionalism, and decision-making skills needed to succeed in health professions.
3. Learn about health-related academic majors and health professions through exploration, informational interviews, and presentations by guest health professionals.
4. Integrate the acquired knowledge to develop goals and an action plan to pursue their career choice.
