## NURS 469: Nursing Internship and Practical Training

### A. COURSE DESCRIPTION

Credits: 1,2,3,4,5,6

Lecture Hours/Week: 0

Lab Hours/Week: 0

OJT Hours/Week: \*.\*

Prerequisites: None

Corequisites: None

MnTC Goals: None

In this nursing practical training course, the student will partake in clinical based training opportunities in an approved healthcare setting. The outcome of this course is to provide opportunities for supplemental clinical based training to enhance the integration of theory and research-based knowledge in professional nursing practice. There are two tracks for this course 1) Nursing Internship (must have successfully completed semester 5 prior to start of internship experience) and 2) \*Curriculum Practical Training (CPT). Each track has its own set of outcomes. Students arrange their own related employment and must be admitted and actively enrolled in the BSN program at MSUM. The CPT Co-Operative (Co-op) Employment Experience for undergraduate F-1 international BSN students provides practical work experience related to the field of nursing per CPT guidelines. Special rules and eligibility criteria established by the BSN Program must be met. Students will work with the Center for Global Engagement.

**B. COURSE EFFECTIVE DATES:** 11/17/2021 - Present

### C. OUTLINE OF MAJOR CONTENT AREAS

### D. LEARNING OUTCOMES (General)

1. At the completion of the CPT Co-op course track, the student will be able to obtain certification as a nursing assistant, as required by employment agency, in the State of North Dakota or Minnesota.
2. At the completion of the CPT Co-op course track, the student will be able to provide safe, direct patient care in a health care setting.
3. At the completion of the CPT Co-op course track, the student will be able to identify the role of professional nursing within a healthcare environment.
4. At the completion of the CPT Co-op course track, the student will be able to formulate at least 4 individual learning goals/outcomes for the CPT experience (in collaboration with course faculty and the agency).
5. At the completion of the Nursing Internship course track, the student will be able to secure an approved nursing internship at a regional healthcare setting.
6. At the completion of the Nursing Internship course track, the student will be able to meet the internship requirements at the secured healthcare setting.
7. At the completion of the Nursing Internship course track, the student will be able to formulate at least 4 individual learning goals/outcomes for the internship experience (in collaboration with course faculty and the healthcare setting contact).
