

## Topic: Projector Instructional Classroom Instructions

### Connect Laptop to display with Audio

1. Video Connection with SVGA cable (Cables are on the top of the teaching console) Connect SVGA Cable and Audio cable, pictured below, to the Video and audio ports on your laptop.
2. Connect network cable to network port on laptop.
3. Turn the projector on by pushing the ON button on the remote control. Wait for projector to warm up and change your display settings for presentation mode.
4. Adjust the Audio by using audio volume on your laptop.

### Display using DVD/VHS, DVD or Blu-ray player (if available)

1. Turn the projector on by pushing the ON button on the remote control.
2. Push the input button on the remote control.
3. Push the power button on DVD/VHS, DVD or Blue ray player if not on already and insert the tape or disc.
4. Use the controls on the front of the device to control the playback.
