**These instructions apply to Windows Operating Systems for installation of O365 Email Services**

1. If you have Microsoft Outlook open, make sure to close it first. Next, you will then need to access the control panel by typing "Control Panel" (without the quotes) in the windows start search bar (Win 7 and 10 - example below) or from the tile screen (Win 8 and 8.1)

2. Once the control panel is open you will need to change the view. To do so click on the drop down arrow next to 'Category' shown in the upper right corner of the picture below and change it to 'Large Icons'. If it is already in 'Large Icon' view, then go to the next step.
3. Open the 'Mail' Icon in the control panel screen to access the program setup. The following screen will open.

4. Click on 'Email Accounts' to open the page below. Click on 'New' to configure a new email account.
5. Start the account setup by entering in your new username first, then Your Name and Password fields in the order illustrated.

- Students: <Your StarID>@go.minnstate.edu
- Faculty and Staff: <Your StarID>@minnstate.edu
6. It will go through an auto-configuration process and it can take some time, please be patient. Allow process to go through if prompted and click “finish” when it is done.

7. Open Outlook, which may prompt you with the following login screen. Be sure to use your account name as appropriate for you.

   a. Students: <Your StarID>@go.minnstate.edu
   b. Faculty and Staff: <Your StarID>@minnstate.edu

8. Your email account is now all setup!
