

Print release instructions for Android devices

1. You must be connected to the campus wifi for printing to work (DragonConnect-Employees or DragonConnect-Students)
2. Download and install the the free 'Mobility Print' app from google play: <https://play.google.com/store?hl=en&tab=w8>
(printing not working on android 5.0.1 possibly others)

Mobility Print

PaperCut Software Productivity

Everyone

This app is compatible with some of your devices.

3. Enable the Mobility Print Service Plugin which can often be found in Android Settings > Connections > More Networks > Printing or in some cases searching Android Settings for 'Printing' depending on your Android version
4. Now you can print from your device to the CloudPrint-Color and CloudPrint-BW printers on campus. You will be prompted for credentials, which you will use your StarID credentials to authenticate. Once you print you can release it at any release station on campus using your Dragon ID card.
