

Topic: How to setup printing from an Ipad or Iphone

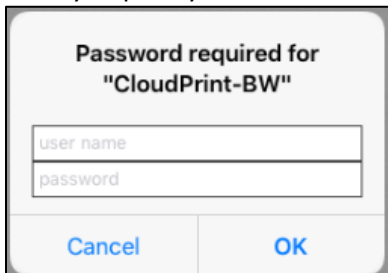

1. You must be connected to the campus wifi for printing to work (DragonConnect- Employees or DragonConnect-Students)
2. Your IOS device will use bonjour to find and utilize the printers on campus. Choose to print from the application you are working with, an example from notes is shown below.

3. Now you can print from your device to the CloudPrint-Color and CloudPrint-BW printers on campus.

4. You will be prompted for credentials, which you will use your StarID credentials to authenticate. Once you print you can release it at any release station on campus using your Dragon ID card.
