B. Your Education

What is your undergraduate major(s)? _____

What is your cumulative GPA (*from all undergraduate schools attended*)? _____

What will be your area/field of specialization? _____

Answer the following questions. **The total length of your application must not exceed 3 pages.**

1. In one or two sentences, describe your career goal.

2. List any post-secondary awards, honors, or scholarships you have received. Rank these with the most important being #1.

3. List past and present activities associated with your interests in mathematics/science in which you regularly participate. Explain the duration, degree, and significance of your involvement, including what responsibilities you had in the projects. Describe briefly any other skills or accomplishments you have developed in the process. Including a summary of posters, presentations, publications, etc. as relevant to this application may be helpful.

4. Describe leadership roles in which you have participated (such as clubs, publications, student government, or other activities related to your field of interest). Rank these activities with the one you consider the most important or significant as "1".

5. Describe an activity or experience important in clarifying or strengthening your motivation for a career in mathematics/science.

Application deadline is March 28, 2018.
