Mac users must do the following check before Oct 13\textsuperscript{th} 2014 so you are ready for the change to StarID

1. Determine if your Mac computer is on the domain.
   a. Click on the \textit{Apple} menu and choose \textit{System Preferences}
   b. Click on \textit{Users \& Groups}
   c. Click on the \textit{Login Options} button
   d. If you see \textit{MNSTATE} or \textit{Multiple} listed by \textit{Network Account Server}: then you will be required to do something on Oct 13\textsuperscript{th} to change your computer to use your StarID. If \textit{MNSTATE} or \textit{Multiple} is not listed, then you are not required to make any of the following changes on Oct 13\textsuperscript{th}, but you will need to use your StarID to connect to network resources.

   *** If you have your old username and password saved in your keychain, please remove them so you will be able to connect to share drives and printers. You can find instructions below to open your keychain***

**Instructions to change Mac Laptop to use Starid on Oct 13\textsuperscript{th} 2014**

1. If your laptop is attached to the network, please remove the network cable and login to your computer with your DragonNet password (same password you previously logged in with)
2. Click on the \textit{Apple} menu and choose \textit{System Preferences}
3. Click on \textit{Users \& Groups}
4. If the padlock on the bottom of the screen is locked, please click on the padlock and enter the password you logged into the computer with.
   a. If you are unable to unlock the padlock, please contact the Helpdesk at the information below.
5. Hold down the \textit{Control} key on your keyboard and click on your username listed under \textit{Current User}
6. Click on the \textit{Advanced Options} when the menu appears
7. Change only the \textit{Account Name} field to your StarID username and click OK (example: ab1234cd)
8. Close the \textit{Users and Groups} window and restart your computer
9. Connect your laptop to the network cable
10. You will now be able to login with you StarID username and password

*** If you have your old username and password saved in your keychain, please remove them so you will be able to connect to share drives and printers. You can find instructions below to open your keychain***

Instructions to change Mac Desktop to use Starid on Oct 13th 2014

1. Login to the computer with your StarID username and Password. (don’t be alarmed if your desktop looks different, the following instructions will revert it)
2. Click on the Apple menu and choose System Preferences
3. Click on Users & Groups
4. If the padlock on the bottom of the screen is locked, please click on the padlock and enter your previous DragonNet credentials.
   a. If you are unable to unlock the padlock, please contact the Helpdesk at the information below.
5. Hold down the Control key on your keyboard and click on your username listed under Current User
6. Click on the Advanced Options when the menu appears
7. Change only the Home Directory field to include your previous DragonNet username after the second slash behind Users and click OK (example: /Users/dragon)
8. Put a check in front of the line that is listed as Allow user to administer this computer
9. Close the Users and Groups window and restart your computer
10. You will now be able to login with you StarID username and password

*** If you have your old username and password saved in your keychain, please remove them so you will be able to connect to share drives and printers. You can find instructions below to open your keychain***

How to open your Keychain for saved usernames and passwords

Find the magnifying glass on the menu bar and then type Keychain Access in the search field. Double click the Keychain Access icon and then find and remove any saved passwords that pertain to DragonNet or MNSTATE.EDU. When you try to access a service that requires the StarID and password, you will be prompted for that and you can then save it again.
