Dreamweaver

1. Open **Adobe Dreamweaver**
2. Select **Site** and choose “**Manage Sites**”

3. Select “New…” and choose “**FTP & RDS Server**”
4. In the Name: box enter your website name (i.e. tnttle)
5. Leave the Access type as FTP
6. For the FTP Address enter **web.mnstate.edu**
7. For the Root Directory enter webfoldername/(i.e. tnttle)
8. Enter your username and password in their respective boxes
9. Click **OK** and then **Done** on the “**Manage Sites**” window
10. You should now be connected to your website and should be able to edit your websites.
11. Your **web pages** and **folders** should be listed to the right. Also in the bottom left corner is the **Results** window that has the **FTP Log** tab which could be useful if you’re over quota or password expired.
