**Topic: Assignments Overview**

Assignments is where students submit their assignments in D2L Brightspace.

It provides a convenient way to submit individual and group assignments from a computer or directly from the D2L Brightspace locker.

An Assignment allows the students to submit their assignments without sending an e-mail or fax.

Reviewers can manage submissions, provide feedback, markup documents, and grade or assess assignments all from a single location.

Group Assignments are created for group submission.
You can view the files submitted by the group members.
The Feedback and Grades assigned to the group assignment applies to all the group members.
