

Topic: Editing Discussion Posts

A feature in the D2L Brightspace Discussions tool allows both students and faculty to edit discussion posts they have previously made. This tutorial will show the steps on how to edit discussion posts that will be useful for both instructors and their students

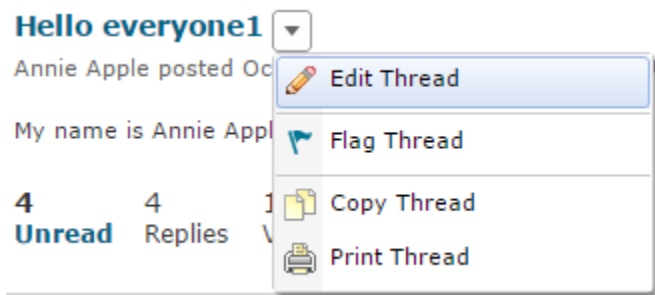

1. Once you have logged into the course in D2L Brightspace, click on **Discussions** under the **Communication** dropdown in the navigation bar of the course.

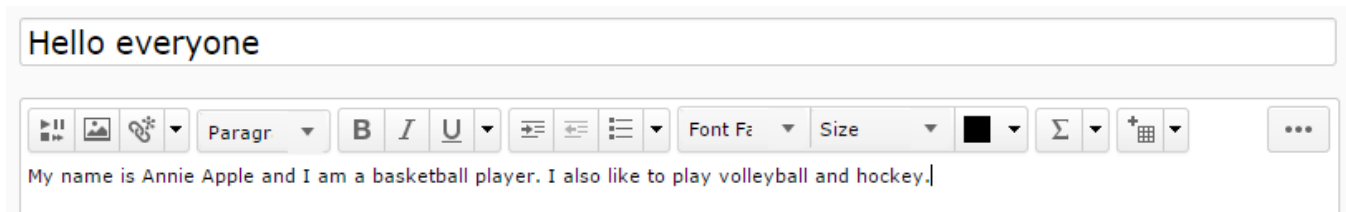

2. Under the Discussion List, find the name of the discussion you want to edit your post in and click on it.

3. Within that discussion, find the post you made. There will be a dropdown arrow next to the name of your post. Click on it and choose **Edit Thread**.

4. Make any of the changes to your post in the text box.

5. When you are done making all of the changes to your post, click Update at the bottom of the screen to save your changes.
