**Topic: Creating Courses**

1. Locate to your i>clicker flash drive and open the iclicker Win v6.x folder.

2. Open the iclicker application.

3. Select New to create a new course.

4. Insert your course data and select Create.

5. Once your course is created, select it in the Choose course window, and select Choose.
6. Once you’ve selected your course, the course session window will open. Here, you can start your session, resume a session, load i>clickers, and change any settings.
