**Topic: Polling**

**To start your polling session:**

1. Select the course you wish to poll and select Choose.

![Choose course](image)

**Session Menus and Options**

1. Click **Start Session**.

![Start Session](image)

2. The session page will show that it is searching for bases using the same frequency so there aren’t any poll frequencies that collide.

![Searching for bases](image)

3. The Session menu will then open.

![Session menu](image)

4. In this menu, you can close the session, start the session, show the results chart, change settings, or shrink the session window.
Starting the Session

1. Click the **Start Session button** or select **Start/Stop polling** on your presenter i>clicker remote.

2. The session will start, the timer indicates how long the poll question has been active. The green number indicates the number of voters who have voted.

3. Select **Stop**, the poll will then close for the present question. When you select the Start Session button again, it will move on to another question.

4. You can open the results chart at any time during the polling by pressing the results button on the menu or the presenter remote.
5. The Results Chart will open. All votes cast will show up in the chart.

6. By selecting Start/Stop Polling again on your remote, you stop the poll, and record the data from the first question. When selected again, the next poll question will be recorded.

Question 2
7. Once you have gone through all questions, close the Session.
