There is a new fraternity on campus and they are the Sigma Sigma chapter of Kappa Sigma. They have been working hard over the past two years to get to this point. The fraternity that is being recognized as a chapter May 3rd and 4th during Greek Week. There will be two area chapters from Grand Forks and the Twin Cities coming up and a representative from the supreme executive committee will be present. Saturday they will be holding rituals all day and end the day with an evening banquet where the chapter will be inducted as a new fraternity.

Kappa Sigma is the most preferred fraternity in the world. They are very proud of their promising leaders and amazing philanthropy work that they do. They participated in Walk a Mile and other events involving empowering women. They also have members who are greatly involved with ending violence against women and are actively working to bring awareness to the topic.

The members that have been involved with the process of this fraternity have dealt with the good and the bad. They have persevered through it all and now look at them. They are very involved on campus. This chapter is also one of the more diverse chapters in the country and they are even getting recognized nationally for their diversity.

Congratulations to Kappa Sigma for being chartered and doing great things for MSUM and the community!
