Another year has come and gone. While we are losing some great Greek Life students we know that they are going out into the world with the confidence they need to succeed. Being a part of Greek Life has been life changing for those involved. They have been able to become a part of a sisterhood or brotherhood here at MSUM. There may have been bumps along the way, but they were able to find something that had meaning and significance to them.

We would like to congratulate those who have been part of Greek Life and are moving on to bigger and better opportunities.

Courtney Roatch from Gamma Phi Beta is graduating with a degree in Psychology and a minor in Speech Language Hearing Sciences. She is currently working at the North Dakota Autism Center and she plans to continue working there. She has been a Gamma Phi for the last four years and has held many offices such as House Manager and Rituals Chairwomen.

Chelsey Koch of Gamma Phi Beta is graduating with degrees in Athletic Training and Exercise Science and minors in Health and Medical Sciences and Coaching. She will be interning at Essentia Health in the Cardiac Rehabilitation clinic. She is also planning on going to Graduate school starting in the Fall of 2014.

Ashlyn Kuklock from Delta Zeta is graduating with a degree in Biology. She is planning on continuing her education and going to Veterinary School. “It really has changed my life for the better. I met some girls that I would have in my wedding, and will be friends with until the day I die. I was able to focus on school, and the girls knew how busy my major kept me, but always welcomed me with smiles and hugs when I made it to events. It hasn’t always been easy”.
