SECTION I: INTRODUCTION

Welcome to the RN-BSN Program

Welcome to the Minnesota State University Moorhead (MSUM) RN-BSN program! We congratulate you - for we understand that the program’s application and acceptance process is rigorous. We are confident that those of you selected for this program have demonstrated the ability to be successful baccalaureate students in advancing nursing careers. Our goal is to support your growth to become a highly contemporary nurse leader and strong change agent, no matter where your practice goals lie. We are here to offer guidance and assistance as you strive to accomplish your educational goals.

You are now part of a historical and highly respected program for RNs who wish to advance their education. Established in 1976, the RN-BSN program is part of the School of Nursing and Healthcare Leadership (SNHL) at MSUM. The School offers not only the RN-BSN program, but also a Master’s in Nursing program, study for Health Services Administration, and a Master’s for Healthcare Administration program. The SNHL is part of the College of Science, Health, and the Environment at MSUM.

The online RN-BSN program is a flagship option in the SNHL and a major offering within MSUM as well. The program’s reputation is strong and its service is expansive. This online program continues to educate RNs from the MSUM area of Fargo-Moorhead, a large majority of RNs from the Minneapolis/St. Paul metro, RNs from across MN, RNs from across North Dakota and many states where Board of Nursing approval has been met.

The program has a long history of incorporating the best of professional standards and guidelines (Appendix A), of being responsive to the key stakeholders informing the program, and of seeking and applying best practices and innovations in nursing education. The program is relatively very affordable. Over the past decades, the program has served numerous RNs who aspired for their baccalaureate degree and higher.

When enrolled in the RN-BSN program, students are a part of the total university community with rights and responsibilities inherent in that capacity. Members of the MSUM community are expected to be familiar with the policies and information in the MSUM Bulletin and MSUM Student handbook. MSUM’s Undergraduate Bulletin provides extensive information on MSUM student resources, tuition/fees, academic policies, etc. MSUM’s overall Student Handbook extends student rights and responsibilities, as well as information on policies/procedures (e.g., grievances, complaints, grade appeals), and student conduct.

This RN-BSN Student Handbook will serve as your guide during your enrollment in the RN-BSN program. It contains vital information, including program-specific policies and procedures. Please read it carefully and become familiar with its contents. Then, if ever questions, know that your academic advisor is your second great resource to supplement the information in this Handbook.

We wish you the best in your endeavors and look forward to helping you reach your goals.

Sincerely,

MSUM’s RN-BSN Program Faculty and Staff

Accreditation Statements

The RN-BSN program at Minnesota State University Moorhead is accredited by the Commission on Collegiate Nursing Education. One Dupont Circle, NW, Suite 530, Washington, DC 20036, (202) 887-6791.

Minnesota State University Moorhead is accredited by the Higher Learning Commission (HLC) of the North Central Association of Colleges and Schools.
**Disclaimers**

This 2019 version of the Handbook supersedes all previous versions. Students are accountable for familiarizing themselves with its contents and for compliance with the policies and procedures contained herein.

**MSUM** is legally authorized to provide this program in many of the United States. If you are admitted, your ability to study with MSUM in your state has been verified. However, if current students consider a move to another state, please contact the School of Nursing & Healthcare Leadership as soon as possible to determine if we are legally authorized to provide the program in your state of destination. We will provide you with any necessary information regarding continuing progression in your program of study.

This RN-BSN Student Handbook is neither a contract nor an offer to make a contract. While every effort has been made to ensure the accuracy of the information enclosed, the Handbook is updated just once each year. **MSUM** and the School of Nursing and Healthcare Leadership reserves the right to make program changes at any time with respect to course offerings, degree requirements, services, policies, or any other subject addressed in this document. Any changes in information are widely communicated to students in the program. The information enclosed is provided solely for the convenience of the reader, and MSUM expressly disclaims any liabilities that may otherwise be incurred.

Minnesota State University Moorhead is committed to a policy of equal opportunity and nondiscrimination in employment & education and is a member of the Minnesota State Colleges and Universities system. **No person shall be discriminated against** in the terms and conditions of employment, personnel practices, or access to and participation in, programs, services, and activities with regard to race, sex, color, creed, religion, age, national origin, disability, marital status, status with regard to public assistance, sexual orientation, gender identity, gender expression, or membership or activity in a local commission as defined by law. Inquiries regarding compliance should be referred to Title IX Coordinator & Case Manager, Room: Flora Frick 153A, Phone: 218.477.2967.

See: [MSUM’s Title IX policies](#)
First Things First!

Before you begin classes in the RN-BSN program, the short list below is your critical to-do list. You may have already taken care this – good for you! Please confirm all necessary post-admission items are completed, submitted, and processed so you can focus on your educational journey from here forward.

☐ **Email.** Are you already in habit of using DragonMail for all school correspondence? You had to use DragonMail to be admitted to the program and is the required email communication for MSUM. As well, your StarID is your username - please remember it!

☐ **Orientation.** Are you scheduled for orientation? There is a mandatory on-site orientation to the RN-BSN program at the start of the new term. The orientation sessions are held at MSUM’s campus and at a designated address in the Minneapolis-St. Paul area. You receive information on this orientation on admission. Have you responded to the orientation invite? In the event of extenuating circumstances that forbid you from attending orientation onsite, please contact your academic advisor to make arrangements.

☐ **Textbooks.** Have you searched for required/recommended texts for your courses next term? Search MSUM bookstore or see this direct site for info course texts: [https://mnstate.verbacompare.com/](https://mnstate.verbacompare.com/)

☐ **Verifications.** Will you have proof of all required immunization, CPR, etc. before nursing classes begin? You received info on admission, the information is also under Nursing (RN-BSN) Admitted Student Requirements on SNHL webpage, and Section V of this Handbook. Be SURE all are submitted before first day of class.

☐ **Computer & Software Requirements.** Is your home computer set and ready? You will need technology that will support your progress as a totally online student. Related info/suggestions are on the SNHL webpage (RN-BSN Program: Computer Access and Recommendations). Also, note Section II of this Handbook for details.

☐ **Financial Aid.** Have you completed your FAFSA and talked with Financial Aid, if needed? Check out the nursing homepage again, there is information on nursing scholarships there.

☐ **Registration.** Did you have a successful meeting with your advisor to set up your academic plan? Are you registered for classes? Know that like all schools, MSUM basically operates on “first come, first serve” philosophy.

☐ **Functional Abilities.** Do you need accommodations to meet program requirements? Please see the RN-BSN program’s info on functional abilities under Section III.
Mission Statements - Why We Are Here!

Minnesota State University Mission
Minnesota State University Moorhead is a caring community promising all students the opportunity to discover their passions, the rigor to develop intellectually, and the versatility to shape a changing world.

School of Nursing and Healthcare Leadership Mission
The School of Nursing and Healthcare Leadership prepares undergraduate and graduate students in nursing, health administration, and community health services for life-long learning, caring service, leadership, and global citizenship.

RN-BSN Program Mission
The RN-BSN nursing program provides baccalaureate nursing education that prepares professional nurses for lifelong learning, caring service, and global citizenship.

Philosophy of the Nursing Program
The Minnesota State University Moorhead (MSUM) nursing programs utilize evidence-based, holistic care concepts to help persons set goals for optimal wellbeing of body-mind-spirit, with high regard for diversity. We believe that this whole health approach serves as a catalyst for relationship-based, person-centered nursing and education.

We believe:
• Nurses holistically care for the person, which includes individuals, families, societal groups, communities, and populations. Each person is unique and multidimensional, interacting with self and the environment in dynamic relationships. Nursing supports each person in pursuit of his or her desired state of health and overall wellbeing.

• Health is an ever-evolving state encompassing physical, mental, social, and/or spiritual wellbeing and functioning across the continuum of life. As nurses, we strive to assist clients to achieve a higher level of health that is consistent with their belief & value system. In addition, the pursuit of wellbeing is the right and responsibility of each person and is to be respected and supported.

• The environment encompasses the internal and external circumstances and surroundings of the person. These include real and perceived physiological, psychological, cultural, spiritual, economic, social, and technological influences. We believe that the person is in constant interaction with the environment and that nurses are a vital part of this environment.

• The profession of nursing is both an art and a science, which serves to protect, promote, and optimize health and ability, prevent illness and injury, facilitate healing, and alleviate suffering (American Nurses Association, 2017).

MSUM nursing faculty and students synergistically provide an innovative curriculum ensuring “real world” experiences to challenge adult learners. Students expand their knowledge through individual and interprofessional collaborative experiences with progressive use of advanced teaching methodologies. Our embraced teaching/learning process fosters intellectual and personal growth, stimulates inquiry, critical thinking, and synthesis of knowledge, and helps the individual value and pursue life-long learning. We advocate for professional career and degree advancement tailored to the unique needs of each person. We connect with students as colleagues and assume the role of facilitator of learning. We foster relationships that are caring, nurturing, guiding, and supportive while maintaining high expectations, applying evidence-based concepts, ensuring quality education, and upholding integrity. We believe that students excel when they feel cared about and accepted in an environment that fosters respect, trust, autonomy, and embraces diverse ways of being, knowing, and learning.
SECTION II: GETTING STARTED

**Time and Commitment**
The RN-BSN program is a totally online offering with some on-site experiences in your geographical region (e.g., Public Health immersion). In this, the program has great advantages to the busy adult student. However, note that as can be appreciated and expected, this nursing program requires a significant commitment of time to devote to study and online engagement. As a general guideline, students might spend three hours preparing for each hour of credit for a course (e.g., a 3 credit course = 9 hours of study and involvement/week). Students often describe the time commitment as rigorous, demanding, and incredibly rewarding.

**Computer Literacy**
It is obviously essential that each RN-BSN student have computer literacy for this online program. Computer literacy is defined as the essential knowledge needed to function independently with a computer, holding comfortable knowledge about computer operations and software. This includes your ability to:
   a) word process,
   b) use Email (DragonMail is required as the only official email communication),
   c) create presentations (e.g., PowerPoint),
   d) manage documents and files, and
   e) to search the Internet.

**Computer Access and Recommendations**
This program exclusively uses the online environment in this educational experience. Therefore, it is important for students to utilize appropriate hardware and software to be successful. MSUM’s Information Technology department will help ensure that your equipment will serve your needs. Please contact Information Technology for any questions: support@mnstate.edu.

Refer to the [Tools4School Hardware](#) page for the suggested minimum technology requirements for the RN-BSN Program.

**NOTES:**
- MSUM offers free and discounted software for current students on the [Tools4School Software & Resources](#) page. Refer to the course syllabus for any specific software that you may be required to use during your class. Note: MSUM students have free access to Office 365, which contains versions of Microsoft Word, PowerPoint, etc.
- Use the [System Check](#) link to check whether your computer is configured to use D2L Brightspace.
- See the [Tools4School Hardware](#) page for recommendations when purchasing a new computer for school.
- Purchases of a computer for educational purposes can be applied to your financial aid and might be tax deductible.
- Students are responsible for the maintenance of their personal computer.

**D2L Brightspace® – the MSUM Online Learning Platform**
D2L Brightspace® is the integrated learning platform used in this totally online RN-BSN program. While there is an element about D2L in the program’s orientation session, please be familiar with this info below.

MSUM’s [Office of Online Learning](#) provides strong supports for students new to D2L Brightspace®. As examples, here are some links from the Office of Online Learning site:
   a) [First Time User](#)
   b) [Login Help](#)
   c) [Profile Photo](#)
   d) [View My Courses](#)
At the site, there are numerous tutorials within the **Students tab** that provide important details and supports. Please note, especially, the info under these links:

- a) Getting Started
- b) Announcements
- c) Assessment Tools
- d) Assignments
- e) Classlist
- f) Content
- g) Discussions
- h) Email
- i) Grades
- j) HTML Editor
- k) Notifications
- l) Quizzes
- m) Surveys

There is strong support for your technology and D2L questions through the **IT Helpdesk** (See also Section VII, Contact Information):

- Support via e-mail: support@mnstate.edu
- Support via telephone: 218.477.2603
- Note that there are Chats and Remote Access services as well.

**Your D2L Courses**
The RN-BSN faculty intentionally support your experience by having many similarities in how each course is set-up for students; however, please appreciate that faculty do have varying philosophical approaches and cannot be clones. Examples of consistent material options you will likely see in your online courses include:

- A home page for each course
- Regular news items posted on the course announcements page
- Under Materials tab > the Content area holds the course start information as well as each module (or learning unit) in the Table of Contents.
- Quizzes and surveys
- Discussions
- Assignment folders for written assignments
- Group/team activities
- Gradebook
SECTION III: THE RN-BSN PROGRAM

Overview
RNs today are increasingly expected to expand their educational preparation for practice in today’s dynamic, challenging, and exciting healthcare environments. The MSUM RN-BSN program is designed to enrich and expand your professional nursing career. For some, the baccalaureate degree may mean job security in your current position. Very often, the added degree supports opportunity for roles in leadership at any level in hospital and long-term care practice. As well, the baccalaureate degree is most often required for many employment opportunities such as in public health, armed services and/or Veteran’s hospitals, home health, research centers, correctional facilities, K-12 educational institutions, law firms, and much more.

MSUM’s evidence-based online RN-BSN program will give you an important, broader perspective and the ability to make an even greater impact as a professional RN. The program also builds a strong foundation for graduate study.

RN-BSN Program Student Outcomes
Graduates of the RN-BSN program are prepared to:
1. Integrate concepts from the arts, humanities, and sciences as the basis for critical thinking and decision making in the art and science of nursing.
2. Recognize the role of nursing leadership to promote safe, high quality care with a focus on continual evaluation and improvement within a variety of organizations and systems.
3. Identify, evaluate, and synthesize evidence to improve healthcare safety, quality, and outcomes.
4. Utilize technology and information systems to communicate, manage information, and support decision making to improve patient outcomes within healthcare delivery systems.
5. Understand the impact of healthcare policy, finance, reimbursement, and regulatory environments on the structure and function of the healthcare system.
6. Communicate clearly and collaborate effectively to promote high quality and safe patient care.
7. Utilize prevention at all levels to promote wellness and disease prevention for individuals, families, communities, and diverse populations.
8. Demonstrate professional values through commitment to ethical practice, ongoing learning, and professional development.
9. Practice caring, competent, holistic, patient-centered nursing with diverse groups in a variety of settings across the lifespan.

RN-BSN Curricular Plans
From the admissions process and with your first term advising time, we trust you appreciate that the curricular plans for the RN-BSN program can be uniquely yours. We coach you to completion; the path is yours to create. You have an advising plan established; your advisor and you will review your plans each fall and spring semesters (and more if needed/desired).

Here are some facts about the program’s curriculum:

a) In total, the MSUM RN-BSN degree requires 120 total credits. Most RN-BSN students enter the program with at least 64 credits from the Associate’s RN degree. Some have many more credits; perhaps even some have previous baccalaureate degrees.
b) All RN-BSN students complete the nine (9) required RN-BSN courses (31 credits, upper division).
c) The nine required RN-BSN courses are offered every spring and fall term; a few required nursing courses are offered in summer session.
d) All MSUM baccalaureate students must complete a total of 40 upper division (300-400 level) credits to graduate. As you will earn 31 upper division credits in the required nursing courses; some students will need more upper division credits to meet these university requirements.
e) Should you need additional upper division credits, the School of Nursing and Healthcare Leadership does offer some important electives that can enhance your profession, as do all departments at MSUM. Nursing electives are predominately offered in the summer and the university has a number of online courses each semester that meet elective course needs.
f) In addition, MSUM requires a total of 42 general education (MnTC) credits for a baccalaureate degree. You brought in many gen ed. credits on transfer. The remaining credits can be from
MSUM’s Liberal Arts and Sciences Curriculum (LASC) credits, combined with upper division credits at MSUM, can sometimes be totally met with an Associate of Arts transfer agreement, etc.

g) As transfer students, MSUM policy states that you must complete the last 30 credits in a major at MSUM. Again, this is logically met by studying the 31 credits required for the nursing major.

h) Students must earn a minimum of “C” in each required nursing course in order to progress in this major (see related policy in Section V).

**RN-BSN Program Required Nursing Courses**

To view a suggested order of course sequencing and course descriptions, the picture of your required RN-BSN courses is provided in table below:

<table>
<thead>
<tr>
<th>REQUIRED COURSE</th>
<th>CR</th>
<th>Course Descriptions</th>
</tr>
</thead>
<tbody>
<tr>
<td>N. 301 Transitions</td>
<td>4</td>
<td>As the first course for RNs who are pursuing a baccalaureate degree, this course provides an overview of the evolution of nursing as a profession. Students are oriented to the role of being scholar-clinicians. The course supports an evolving professional identity and examines major issues and trends in contemporary nursing. Students will explore critical abilities in professional practice such effective communication, working in groups, teaching-learning, and more. The prevailing focus of analysis is quality and safety for the care of individuals, groups, and families. This course is a prerequisite for all other courses in the nursing major for RN-BSN students. Optional co-requisites are N. 303 (Family Health Nursing), N. 342 (Care of Diverse Populations), and/or N. 370 (Research &amp; Evidence-Based Practice).</td>
</tr>
<tr>
<td>N. 303 Family Health Nursing</td>
<td>4</td>
<td>This course emphasizes nursing care of the diverse family unit across life stages and care settings. Family focused care that is theory driven and evidence informed guides students in developing holistic, health promoting, culturally sensitive approaches to care. In addition, promotion of critical thinking and effective, therapeutic communication, and collaborative practices are emphasized in the care of families.</td>
</tr>
<tr>
<td>N. 342 Care of Diverse Populations</td>
<td>2</td>
<td>This course supports the advancement of patient-centered care with the imperative that nurses impact the profound disparities in health status and health care, both nationally and globally. Students will examine what is meant by culture and the ways that culture intersects with health issues. The prevailing focus that professional nurses are committed to advocating for safe quality care to all, congruent with the tenets of social justice, human rights, and bound to nursing’s Code of Ethics.</td>
</tr>
<tr>
<td>N. 370 Nursing Research and Evidence-Based Practice</td>
<td>4</td>
<td>This course is grounded in the translation of current evidence into best practice. The research process links nursing theory with clinical nursing practice for application within the larger healthcare system. Emphasis is placed on preparing students to retrieve, read, and comprehend published research reports. A systematic approach to appraisal of research evidence is emphasized as a means of informing nurses’ clinical decision-making and is incorporated into a research critique. Students develop an evidence-based practice project as well as explore evidence-based practice models to facilitate implementation and dissemination.</td>
</tr>
<tr>
<td>N. 348L Public Health Nursing</td>
<td>4</td>
<td>This online course combines the theory base with (independent) clinical experiences in complex systems and with aggregates in the community. Emphasis is placed on the promotion, maintenance and restoration of health and wellness and the prevention of disease. (L= involves clinical PHN experiences planned in the student’s geographic area)</td>

</table>

**A Sample Plan of Study**

A sample plan of study is presented in table below, listing only the required RN-BSN program major courses. Please remember that each student in our program has opportunity to pace their program as they want. Nursing 301 is the absolute first course in the major and N. 473 is the capstone (culminating) course after all other study is completed (but for N. 472). Again, some required courses are typically also offered in summer sessions, though never guaranteed in summers. Students needing additional upper division or LASC courses will be advised to incorporate those degree requirements as fits the individual students’ needs.

<table>
<thead>
<tr>
<th>Term #1 (Fall or Spring)</th>
<th>Pre-Req</th>
<th>Optional Co-Req(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. N. 301 - Transitions</td>
<td>0</td>
<td>N. 303, 342, 370</td>
</tr>
<tr>
<td>2. N. 303 - Family Health Nursing</td>
<td>0</td>
<td>N. 301</td>
</tr>
<tr>
<td>3. N. 342 - Care of Diverse Populations (or in a summer)</td>
<td>0</td>
<td>N. 301</td>
</tr>
</tbody>
</table>
### Term #2 (Fall or Spring)

1. N. 370 - Nursing Research and Evidence-Based Practice (or in a summer)  
   0  
   N. 301

2. N. 348L - Public Health Nursing  
   N. 301, 303  
   any others but N.473

### Term #3 (Fall or Spring)

1. N. 420 - Gerontological Nursing to Promote Successful Aging (or in a summer)  
   N. 301, N. 370 (advise later in program, if possible)

2. N. 450 - Applied Pathophysiology  
   N. 301 (advise later in program, if possible)

### Term #4 (Fall or Spring)

1. N. 472 - Leadership and Professional Development (or in a summer)  
   N. 301, 303, 370  
   any others including N. 473

2. N. 473 - Professional Pathways (or in a summer)  
   All nursing courses but N. 472  
   N. 472

---

**RN-BSN Program: Tuition & Fees**

The cost of completing the online RN-BSN degree from MSUM is one of the most affordable options in the country. The total cost will be determined by the number of credits you will need to study for the baccalaureate degree from MSUM. At minimum, all students will study the required 31 core nursing credits. Thereafter, there may be upper division electives and/or liberal arts courses yet to complete.

RN-BSN students incur the online course tuition fee as provided here: [Business Services: Undergraduate Online/Distance Courses](webpage). An additional small fee is charged when students enroll in N. 301 (Transitions), N. 348L (Public Health), and N. 473 (Professional Pathways). These fees cover the unique costs of materials in nursing study as well as the annual background checks required by the MN Department of Human Services. Please note nursing-specific information on this site: [Differential Tuition by program](webpage).

Students are responsible for arranging payment of their tuition and fees by deadlines established by the Business Services department to avoid registration issues.

**Public Health and Licensed School Nurse Registration in Minnesota**

**Public Health Nurse Registration**

Upon successful completion of this RN-BSN program, graduates may elect to apply for Public Health Nursing (PHN) certification through the Minnesota Board of Nursing (BON). The certification process requires that PHNs be licensed RNs in MN, hold a baccalaureate degree or higher in nursing, and have studied PHN in both theory and clinical coursework. The MSUM RN-BSN program will complete the official confirmation of PHN education affidavit to support your successful application. Details on the PHN registration are provided at this site: [Minnesota Board of Nursing - Public Health Nurse Registration](webpage).

**School Nurse Licensure in Minnesota**

To become a licensed school nurse (LSN) in Minnesota, nurses must obtain a school nurse license issued by the Minnesota Board of Teaching. The process first requires that LSN applicants be registered as a Public Health Nurse through the MN BON. Then, application for school nurse license may be made to the MN Board of Teaching. Details on the LSN are provided at this site: [School Nurse Organization of MN - School Nurse Licensure](webpage).

RN-BSN graduates residing in other states are advised to consult their state board of nursing for related information.

**Functional Abilities and Accessibility Resources**

MSUM’s nursing programs hold high responsibility and accountability for nursing practice in a variety of settings. For this program, there may be some instances where key functional abilities (physical and mental) are essential for success in a course. For example, for the N. 473 Pathways course, if a student chose a critical in-patient setting for the course project, he/she may need to have the functional ability of distinct fine and gross motor skills to manipulate equipment or be able to lift 35 pounds.
Every RN-BSN course syllabus indicates that if a student does have a disability and requires consideration for special accommodation to meet course outcomes, the student must apply for services through MSUM’s Accessibility Resources office for considerations to occur. MSUM and the RN-BSN Program will endeavor to make reasonable modifications and accommodations for students with disabilities, without compromising the performance standards essential for course and nursing program outcomes. Decisions on accommodations are made on an individual basis and they are not retroactive; if you have been approved for accommodations, communicate this early to your course faculty.

To contact the Accessibility Resource Center

Phone: 218-477-4318 (Voice) or 1-800-627-3529 (MRS/TTY)
Located on the MSUM campus in the Flora Frick building (office #154)

Graduation and Commencement
MSUM’s graduation requirements are presented at this site: Graduation Requirements Policy. Students must complete and sign an Application for Graduation in first weeks of the anticipated graduation term; the form is then forwarded to faculty advisors for further processing. See form here: Application for Undergraduate Degree.

RN-BSN students are highly encouraged to participate in the festive commencement ceremony at program completion. The ceremony brings graduates together with family, faculty, and staff - and is an important time to celebrate your achievement! In the term you graduate, you will receive related information approximately one month before the semester ends.

Graduation Memorabilia
The MSUM Bookstore holds academic attire, graduation announcements, and nursing pins for purchase. Should you wish to make purchases, please enter the related links at MSUM Bookstore.
SECTION IV: RN-BSN STUDENT SUPPORTS

Faculty Advisors
When you are admitted to the RN-BSN program, you were assigned to a nursing faculty advisor. The role of the advisor is to enhance your experience and success through proactive, informed, and compassionate advising. Your advisor will support you with course planning and strive to identify supports you may need for academic progression and more.

Each term (fall and spring), you will meet virtually during designated advising times (noted on the MSUM Academic Calendar) to plan for course registration for the next term. Know that you will not be able to register until you have had the “clearance” with your advisor after advising time has been completed. At that point, you will get an access code for online course registration when MSUM’s registration opens for the next term. Students who hold a previous degree will not need a registration code but are recommended to discuss their plans with their advisor for a seamless pathway through the program.

MSUM has rich info on the Advising Resources site. In end, always plan early so you can register early!

Information Technology Helpdesk
Again, as referenced in Section II, D2L Brightspace® is the online learning management system used to deliver the RN-BSN courses at MSUM. The MSUM Instructional Technology team has created very important and very user-friendly guides to support an easy navigation through the online scene.

Again, the starting page for your understanding and using D2L Brightspace® is under Instructional Technology Services on the MSUM web. Use these resources appropriately as first option for answers to questions.

Then, the IT Helpdesk is available to provide support to students and faculty. The IT Helpdesk link is in each D2L Brightspace® RN-BSN nursing course. The Helpdesk has a reputation for rapid responses, which can include providing remote computer support, chat sessions, and much more. Helpdesk hours are into evenings and on Sundays; their schedule is on their website.

Contact info for IT is on the web
- Email: support@mnstate.edu
- Support via telephone: 218.477.2603

Writing Supports in the RN-BSN Program
MSUM’s nursing programs use APA Style for all papers in the programs, as reiterated in syllabi and assignments. We highly recommend that students have all papers reviewed by online tutors for basic grammar and APA writing style issues before submission.

Online Tutoring
MSUM has a “Tutor.com” service that allows you to connect with an expert tutor almost the moment you need help, to submit a paper draft for review, submit questions, and more. Students access Tutor.com directly through their D2L home page (look to the top right-hand corner).

University Writing Support Center (UWSC)
Should students prefer or be able to be on campus, the UWSC offers 50-minute appointments with trained writing tutors.

See MSUM's main Tutoring page: https://www.mnstate.edu/asc/tutoring.aspx

Writing: The Online Writing Lab (OWL) at Purdue
Purdue University has an excellent online writing lab known as OWL that is free to the public. This is an incredibly friendly site where you will find helpful explanations and sample papers to help you with writing and with APA formatting. Their APA home page, with vidcasts, a YouTube channel, etc. are here: APA: General Format.
Livingston Lord Library
You will get a separate orientation to the MSUM library services, but know that library services and materials are available both on-line and on-campus through the Livingston Lord Library.

- A virtual library orientation for the RN-BSN Nursing Program is available here: Nursing Orientation.
- As an online student, you can access MSUM's databases and interlibrary loan using your StarID and password. See more information here: Accessing Databases from Off-Campus.
- Travis Dolence is our dedicated distance librarian who offers assistance and expertise virtually, as well as in-person. He’s great - get to know him!
- Within D2L's library link, there is a chat feature for the library to assist faculty and students in real-time. When chat hours are not available, questions may be submitted directly to the library electronically.
- The library supports are extended to the online learners through a specific link on the homepage of each D2L Brightspace® course.

Tools4School
MSUM offers a number of technology tools that you can use while a student. Whether it is utilizing the educational discounts on hardware or taking advantage of the free software; make sure to check out your opportunities at this IT site: MSUM IT Tools4School - and don’t be afraid to ask questions!

Registrar's Office
The MSUM Registrar's Office manages your student transcripts, Degree Audit Report (DARs), and other official documents from admission through graduation. The Registrar's Office is exceptionally knowledgeable about MinnState, MSUM, and RN-BSN program policies for transfer credit and program completion. This office also supports students with academic appeals, grade and tuition refund requests, and more.

Office of Financial Aid & Scholarship
MSUM's Office of Financial Aid & Scholarship has expert counselors who assist students in completing the FAFSA and other requirements to access available financial aid of all varieties (grants, federal and state aid, etc.). Online students can readily access the MSUM Financial Aid counselors to seek avenues for funding support.

There are limited MSUM-general scholarships available to RN-BSN students. However, there are several nursing-specific scholarships available to RN-BSN students through the nursing department; the application deadlines for nursing-specific scholarships are mid-February each year.

In addition, for Sigma Theta Tau International members, please see additional scholarship opportunities at Xi Kappa at Large Chapter http://xikappa.nursingsociety.org/home
SECTION V: RN-BSN PROGRAM POLICIES

VERIFICATIONS for PROGRAM COMPLIANCE
To comply with Minnesota, federal, and agency requirements for MSUM's RN-BSN students, all students must verify all program requirements (listed below) before program start and during enrollment in the program. Thereafter, some requirements will need re-verification, depending on how long your program of study lasts. In addition, some agencies may add requirements beyond what are current below; in such case students would need to comply with the added clinical site requirement(s).

The list of requirements follows and is on the Nursing RN-BSN Admitted Student Requirements webpage and on next page. To remain program compliant, it is absolutely the student’s responsibility to remain current with verifications listed below. Students who are non-compliant face risk of program dismissal.

WHERE to Upload Required Verifications
Students in the RN-BSN program are required to submit (or complete) all verifications to an electronic repository, CastleBranch®. Within CastleBranch®, students are required to establish an account which provides a secure location to upload, track, monitor, and house all program verifications.

Upon acceptance to the program, RN-BSN students will receive an email outlining the (below) process to get started in CastleBranch® (CB). To get started:
  a) The cost for you to complete the verification on your CB account will be a one-time fee of $97.
  b) Place your order and create your account visit https://www.castlebranch.com/
  c) Begin by clicking “Place Order” then under “Package Code” enter MQ12.
  d) Please read and review the details, check the box provided, and click “Continue” to enter your information.
  e) If you have any issues with this phase, first call the CastleBranch service personnel for assistance @ 888.723.4263 or see https://mycb.castlebranch.com/help
  f) If you need additional support, contact the nursing office assistants at nursing@mnstate.edu or (218) 477-2693.
  g) Once you have created your account and purchased your package, you can complete the requirements listed below.

PLEASE NOTE:
- Do not send verifications/compliance documents to the School of Nursing and Healthcare Leadership, nursing faculty or staff, as they will not be accepted.
- All records must be OFFICIAL and must be uploaded in the CastleBranch® or faxed/figured to their agency.
- If you need assistance, please FIRST contact CastleBranch® directly, 8am - 8pm, M-F (888-723-4263 or see https://www.castlebranch.com/contact-us )
- For questions to the nursing program, please contact nursing@mnstate.edu OR call 218.477.2693
- Liability Insurance. The University (through MinnState) provides liability insurance for nursing students (and faculty members) only for when students/faculty function as students/faculty. Students are not covered by this liability insurance while practicing for pay, during personal volunteer work, or during any engagements other than in student role.

RN-BSN students are encouraged to carry their own personal professional liability policies as practicing clinicians. Reasonable insurance rates may be obtained from insurance companies, e.g., the Nursing Service Organization (NSO), Mercer (through the ANA) and others.

The Verifications list follows.
<table>
<thead>
<tr>
<th>Clinical Requirements</th>
<th>Acceptable Verification</th>
<th>When Due</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>1. MQ 12 eLearning: HIPAA Training</strong></td>
<td>Within CB under the MQ12 e-learning tracker, students complete HIPAA Training (Overview 2013) and upload their completion certificate to their CB profile.</td>
<td>on admission</td>
</tr>
<tr>
<td><strong>2. Minnesota DHS NETStudy (background check)</strong></td>
<td>By MN law, through the Minnesota Department of Human Services (DHS), all nursing students must submit a specific Minnesota DHS NETStudy 2.0 (background) on admission and annually. You get instructions for completing your DHS study in email after admission to the program (if questions, please email <a href="mailto:nursing@mnstate.edu">nursing@mnstate.edu</a> for further information). Please note that fingerprints and a photograph are now required for this background. The Minnesota DHS NETStudy 2.0 notice of study results will come via postal mail or you can log into your MN DHS NETStudy account to obtain a copy of your clearance letter. Please submit a copy of clearance letter within CastleBranch®.</td>
<td>on admission and annually</td>
</tr>
<tr>
<td><strong>3. Demographic Document Data Manager</strong></td>
<td>Complete Demographic Document Data Manager in CastleBranch® and update if/when any relocations (moves) occur while a RN-BSN student.</td>
<td>on admission and when edits are needed</td>

</tr>
<tr>
<td>15. Release of Records</td>
<td>To assure agency contract compliance, at times some agencies may require proof of specific verifications on this list. Within the CB site, students affirm that it is acceptable to release records if requested from CB.</td>
<td>on admission</td>
</tr>
</tbody>
</table>

Program Compliance
Experiential learning is a vital element in many courses in the nursing curriculum (e.g., in Public Health and in the end-program course, Pathways). Minnesota State University Moorhead values our agency partnerships and respects the student requirements in the interagency contracts for these experiential activities. Students may not be allowed to participate in agency experiences and cannot be guaranteed placement if they 1) decline required verifications, 2) are not compliant with all verifications in CastleBranch® prior to course start, or 3) or have concerning offenses on their background check(s). In the end, the student’s inability to participate fully in experiential learning activities will jeopardize their success in the program and he/she may be asked to withdraw if the requirements are not met.

Attendance Policy: Online and In Experiential Learning Activities
Students are expected to participate in online courses several times weekly. At minimum, you can anticipate that your online course engagements for each module will happen at multiple times each week; for example:
- Encounter #1: to appreciate module objectives, prepare to read materials, study, and digest the information
- Encounter #2: to participate in course assignments (discussions, etc.)
- Encounter #3: to complete requirements and reflect on faculty feedback via grades, etc.

Further, students are reminded that at MSUM, all financial aid recipients are subject to a federal and state “last day of attendance” policy and aid eligibility is based on the last day that class attendance or online course activity can be documented (reference: Financial Aid Director, #218-477-2251).
Regardless of the attendance policy, students are always responsible for all learning activities for each module (learning unit) in the D2L Brightspace® class. Refer to individual course syllabi for specifics.

For all experiential learning activities arranged, attendance is required. Attendance is further addressed in the respective course syllabi. It is the responsibility of the student to contact the faculty member to discuss any conflicts. Failure to complete experience hours (e.g., in Public Health) puts any student at risk for failure of that course. In an emergency, students shall contact the faculty and agency (or related individual, such as the gerontological client with whom the student relates) as soon as possible.

**Experiential Mentorship**

There are two courses that involve a mentor-relationship to support course outcomes. A mentor is a professional registered nurse or other healthcare professional partner with a high level of expertise in a specific area who enhances learning experiences for students. The mentor may delegate to other individual partners/coaches in order to facilitate the experience for the student. Course faculty will outline the mentor relationship policy (and requirements) through advisors and in the course.

**Appearance in any Experience Setting**

Students in an agency setting not only represent themselves as solid professionals, but they are also a reflection of the high reputation that the MSUM RN-BSN Program holds. While some agencies may have specific requirements, as informed by your course faculty, the following information details general expectations for MSUM students in experience settings:

1. Students are to present as the highest professional in that setting; course faculty will advise.
   a) At minimum, students will wear appropriate semi-professional ID dress and the identifying MSUM photo ID badge.
   b) Jeans and casual tops are never appropriate as a MSUM student in community experiences (unless instructed otherwise by your faculty or clinical mentor).
2. MSUM Nursing Student photo ID badges are provided, on a one-time basis, on admission to the RN-BSN major.
   a) If the name badge is lost or damaged, the student is responsible for replacement and should contact nursing department

NOTE: MSUM’s bookstore does sell MSUM polo shirts and more. However, students are to consult with faculty as to appropriateness of MSUM polo shirts in experiential settings.

**Tobacco Use Policy**

MSUM is committed to creating a clean, safe, and healthy living, learning, and working environment - for all students, employees, and constituents of the University (as are those in clinical sites and/or agencies). While in any agency experience, online students are subject to the MSUM Smoking and Tobacco Use/Sale Policy. Tobacco use of any kind is not permitted while functioning in the role of the MSUM RN-BSN student. Any reports of tobacco use or evidence will result in failure for the clinical experience from where the report was given.

**Chemical Use and/or Abuse Policy**

The experiential learning opportunities in this RN-BSN program build on the integrity and character demonstrated in students completing the Associate’s RN program and in practice thereafter. However, if there is a reasonable suspicion that a student has used or is using, possessing, transferring, or selling alcohol or illegal drugs, the RN-BSN student may be tested pursuant to the agency site’s employee drug and alcohol policy. At some sites, the fees associated with testing will be the responsibility of the student.

If the tests are confirmed positive:
1. The faculty will complete documentation reporting the incident.
2. The student will be immediately dismissed from the clinical site after safe transportation has been arranged by the student and approved by the faculty member present.
3. Course faculty will submit the documentation to the SNHL Chair within 24 hours and a disciplinary review will follow.
4. The student will be subject to disciplinary action according to MSUM policy.
**Academic Integrity Policy**

Minnesota State University Moorhead has taken a strong and clear stand regarding academic dishonesty. The consequence of academic dishonesty ranges from disciplinary probation to expulsion. The nursing programs hold the following policy on academic integrity:

1. There is NO tolerance for cheating and/or plagiarism on any assignments in this program.
2. As established in the university-wide MSUM Student Handbook, “cheating” includes, but is not limited to, the use of assistance in quizzes, tests, exams; using sources beyond those authorized by faculty to complete assignments; engaging in any behavior prohibited by a faculty on syllabus or class directives.
3. Plagiarism is the act of drawing ideas or language from another without crediting that source. There are many forms of plagiarism; the most obvious is verbatim plagiarism (copying word-by-word). To that end, while RN-BSN faculty provide individual perspective and directives on plagiarism, some researchers consider verbatim-type of plagiarism as copying 10 words without proper referencing.
4. Be cautious to indicate the source of your information (APA Style!) whenever you paraphrase or summarize another’s works.
5. All required assignments may be subject to screening through plagiarism detection software.
6. All written work must be done individually (unless assigned to a group project), properly cited, and referenced, using APA style.
7. If a student has questions about the policy, it is her/his responsibility to discuss it with their faculty or academic advisor.
8. In summary, all work must be completed in a manner consistent with the MSUM codes for academic conduct. For a copy of the codes for academic conduct, please refer to the [MSUM Student Handbook, Policies & Procedures and Student Conduct Code](#)

**Critical Incident Policy**

A critical incident is described as a breach of any associated policy of a nursing course, of the program, college, or of professional nursing standards as outlined in the ANA’s Code of Ethics and/or Scope and Standards of Practice, nurse practice acts, and more. Examples of critical incidents, in part, would be unprofessional or unethical behavior, unsafe practice, breaches in confidentiality (HIPAA), incivility, lack of integrity, cheating, intentional plagiarism, etc. An occurrence of a critical incident is a significant concern and documentation enables faculty to support re-direction of at-risk behaviors. A critical incident would be documented by faculty on a Critical Incident Report form. The documentation of the critical incident, including a plan of action, would be reviewed and signed by the student. The Critical Incident Report would be filed with the Chair of the School of Nursing and Healthcare Leadership. Note below that any combination of two critical incidents results in program dismissal.

**Academic Progression**

*In order to progress in the RN-BSN major, students will*

1. Maintain an overall 2.75 GPA in the nursing program courses.
2. Earn a grade of C- or higher in each nursing course.
3. Achieve satisfactory/passing performance for the experiential components in the Public Health (N.348L) and Pathways (N. 473) courses.
4. Complete the RN-BSN core nursing courses within five calendar years.

**Nonfulfillment of Progression Requirements (grade D, F)**

*Should standards for academic progression not be met, the following policy applies:*

1. An unsuccessful attempt (grade D or F) of any nursing course may be repeated only ONE time on a space-available basis. A second unsuccessful attempt will result in dismissal from the program.
2. Unsuccessful attempts (grade D or F) of any TWO nursing courses within the baccalaureate program will result in immediate dismissal from the program. If there have been unsuccessful attempts in any TWO nursing courses, the second failed course cannot be re-attempted.
3. Any nursing course that was unsuccessful (grade D or F) must be repeated successfully before progressing in the major. Following an unsuccessful attempt, in the next semester the student is limited to studying just two courses (the repeated course and another).
4. The faculty member will communicate any unsuccessful attempts to the Chair at the end of the semester.
Probation
A student is placed on program probation if any of the following occur:
1. An unsuccessful attempt (grade D or F) of one nursing course.
   • Student has one term to repeat that course and achieve a C- or higher.
2. Cumulative MSUM nursing GPA drops below the required 2.75 average.
   • The student then has TWO semesters to attain/surpass the 2.75 GPA for progression.
3. There is any critical incident, documenting at-risk behaviors.

Program Dismissal
A student will be dismissed from the nursing program for:
1. Failure to maintain current records of program and clinical requirements (see Verifications for Program Compliance policy)
2. Revocation of his/her RN licensure
3. Failure to achieve a minimum of “C-“ in all nursing courses after one re-attempt of unsuccessful course.
4. Failure to meet progression standards of MSUM nursing GPA 2.75 or higher for two consecutive semesters.
5. Any combination of TWO critical incidents documented, which reflect poorly on the professional, ethical conduct expected of MSUM’s RN-BSN students.
6. A federal or MnDHS background study that disqualifies the student from any position allowing direct contact with those receiving healthcare related services.

Request for Program Reinstatement
A student who has been dismissed from the nursing program for academic failure, or any other reason, may request a review for reinstatement.
1. The written request for reinstatement should be addressed to the Chair.
2. If the dismissal is for academic performance, a plan of improvement must be included with the request. Reinstatement will be based on the decision by the RN-BSN Admissions and Progressions Committee and Chair.
3. Should reinstatement be granted, the date of return is determined by the Chair based on space availability.
4. Reinstated students must adhere to the readmission recommendations/expectations of the RN-BSN committee and Chair.

Voluntary Withdrawal from Program & Readmission Considerations
Any student considering program withdrawal is strongly encouraged to meet with the faculty advisor or SNHL Chair. The processes for withdrawal and readmission follow.
1. A student who withdraws before starting or within the first semester of the program must re-apply to the program for re-admission.
2. Students who withdraw after completing one or more semesters in the RN-BSN program may in good standing may request a leave of absence from the RN-BSN program. However, if a student has not taken a course at MSUM for over two consecutive semesters (not including summer), he/she will need to re-apply for admission to MSUM when desiring to return to the program but not the RN-BSN program.
3. Requests for leaves of absence must be submitted in writing to the Chair of the SNHL.
4. Readmission following a leave of absence will be granted only if course spaces are available.
5. Again, all students must complete the complete the RN-BSN core nursing courses within five calendar years.

Formal Complaint Policy
The School of Nursing and Healthcare Leadership (SNHL) at Minnesota State University Moorhead (MSUM) is committed to the promotion of quality education in an environment of civility, fairness, and integrity that is free from discrimination. To honor that commitment, students are encouraged to seek resolution of any concerns, problems, or grievances that they may encounter during the course of their education. All students are informed of the process at the time of orientation to the programs.

The SNHL acts vigilantly to resolve any issues on an informal basis. When issues arise, individuals are to first seek resolution at the lowest appropriate level. If resolution is not satisfactory, the individual informally escalates the concern, as appropriate, to the next level. Should issues not be resolved on an informal basis, the process for resolution becomes formalized.
A formal complaint is defined as a concern, grievance and/or complaint in which an individual feels that he/she has not received treatment consistent with University policy and/or has concerns about SNHL students, faculty, staff, or the department as a whole. A complaint becomes formal after it cannot be resolved informally, at which time it is sent out in writing, and forwarded as outlined in the grievance/complaint sections of the MSUM Student Handbook.

In summary, the complaint process should occur in the following order:

1. Informal Process
   a) The student will first discuss the problem with the person(s) directly involved to seek resolution of the problem (for instance, another student, a preceptor).
   b) If the matter remains unresolved, the student discusses the problem with the faculty member.
   c) If the matter remains unresolved, the student contacts the Chair of the School of Nursing and Healthcare Leadership. The student provides as much detail about the concern as possible. The student indicates a potential resolution. This communication may occur verbally and/or via written concerns to the Chair. The written complaint closes with the student’s signature and date. (Note: The Chair will keep a record of all complaints for documentation and program quality improvement purposes.)

2. Formal Process
   a) If the matter still remains unresolved despite advancing the matter through the informal process ranks, the student will file a written complaint utilizing the form as attached below.
   b) In filing a formal concern, students are referred to the MSUM Student Grievance and Complaint Process in the MSUM Student Handbook.
   c) Undergraduate grade appeals are addressed in the MSUM Student Handbook.

Incomplete Grades
The mark of "I" (Incomplete) can be granted when the student is unable to complete course requirements for reasons beyond their control and when arrangements have been made with the instructor before the end of the semester (MSUM Policy).

The course with “I” designation must be completed by end of the subsequent term or the grade changes to “F.” Should a student receive an incomplete in a nursing course that is a pre-requisite for a subsequent course, the pre-req course must have a grade before continuing to the subsequent course.

MSUM’s Student Email Policy
As provided in MSUM and MinnState Board policy, university email accounts are required for official communication with MSUM students. RN to BSN students are enrolled in the RN-BSN electronic mailing address (Listserv), which is used for official purposes including announcements related to advising, scholarships, emergencies, etc.

RN-BSN program students must monitor mnsstate.edu email regularly as the program and university uses this exclusively to receive, read, and respond to program related correspondence.
APPENDIX A

RN-BSN Program - Grounding Professional Standards and Guidelines

RN-BSN faculty are focused on the dynamic professional standards and guidelines that support the needs of an ever-changing and increasingly global healthcare world. The RN-BSN program student outcomes are framed from standards presented by the American Association of Colleges of Nursing (AACN) in their publications, *The Essentials of Baccalaureate Education for Professional Nursing Practice* (Essentials) (AACN, 2008).

The RN-BSN program also incorporates additional professional standards and guidelines into curricular decisions as appropriate. Examples of additional guidelines further informing the RN-BSN program follow:

- American Association of Colleges of Nursing (AACN) (2010). *Recommended baccalaureate competencies and curricular guidelines for the nursing care of older adults*.
- Public Health Foundation (2014). *Core competencies for public health professionals*.
- Quality and Safety Education for Nurses (QSEN) Institute (link)
